

**City of Eastvale**  
**City Council Meeting Agenda**  
**Staff Report**

---

**MEETING DATE: AUGUST 26, 2015**

**TO: MAYOR AND COUNCIL MEMBERS**

**FROM: JAMES R. RILEY, INTERIM FINANCE DIRECTOR**

**SUBJECT: TREASURER'S REPORT – QUARTER ENDED JUNE 30, 2015**

---

**RECOMMENDATION: RECEIVE AND FILE THE CITY TREASURER'S REPORT**

---

**BACKGROUND:**

In accordance with Resolution 11-02, City of Eastvale's Investment Policy, adopted January 12, 2011, the City Treasurer is required to submit a quarterly treasurer's report to the City Council. The report shall include types of investments, investment ratings, institutions involved, dates of purchases, dates of maturity, amount of deposits or cost of the security, current market value of the securities, interest rates, investment fund balances and a statement that there are sufficient funds to meet the City's cash obligations.

**DISCUSSION:**

With the recent additions to the City's investment portfolio, staff has developed a more detailed Investment Report to be presented to Council. The result are two schedules which will allow Council to review the total cash available to the City and to review the types of investments that the City of Eastvale holds and the pertinent details of those investments.

Schedule 1, Schedule of Investments, includes a breakdown of the City's investments by "Active" or "Inactive" Deposits. "Active Deposits" are those accounts which receive revenues, whereas "Inactive Deposits" are available for use but are not earning revenues. Moreover, the City's investments are presented at par value (face value), book value, and market value and with all supplemental information as required by the City's investment policy.

## City of Eastvale

### City Council Meeting Agenda

### Staff Report

Schedule 2, Dash Board Report Card, consists of four sections:

- I. Cash Flow – This section compares the Active and Inactive Deposits at June 30 for the prior two fiscal years and the three months for the current quarter. Additionally, this section shows the change in Active Deposits from each of the compared periods.
- II. Liquidity Calculation – Liquidity is amount of capital that is available for investment or spending. Liquidity is determined by means of a calculation using monthly cash balances and expenditures reduced by reserve requirements.
- III. Portfolio Diversification – This section reflects the diversification of the City of Eastvale’s portfolio by both type of instrument and length of maturity.
- IV. Portfolio Performance Measures – The section gives a comparison of the City’s investment yields compared to various treasury benchmarks. This section also compares budget to actuals in the area of interest earned.

The City of Eastvale’s Schedule of Investments is in compliance with the City’s Investment Policy. The City has sufficient funds to meet its expenditure requirements for the next six months. Total cash and investments at June 30, 2015 is \$46,199,238.76 (book value).

#### **FISCAL IMPACT:**

No budget or fiscal impact.

#### **STRATEGIC PLAN IMPACT:**

Goal 1: Establish a solid fiscal foundation for the City

#### **ATTACHMENTS:**

1. Schedule of Investments – June 30, 2015
2. Dash Board Report Card – June 30, 2015
