City of Eastvale Seeks Congressional Funding for Future Civic Center Development

EASTVALE, CALIF. – The City of Eastvale is proud to announce the recent submissions of six FY 2024-2025 Congressional Directed Spending and Community Project Funding applications. If approved by Congress, the City of Eastvale will receive federal funds to support projects that enhance the quality of life of Eastvale residents.

Through the annual federal government funding process, Members of Congress can request that spending be directed to specific projects within the districts in which they represent. This process is known as the Congressional Directed Spending (CDS) procedure in the Senate and the Community Project Funding (CPF) request in the House of Representatives. Each year, Senators and Congressmembers encourage state and local government agencies, tribal governments, and nonprofits to submit eligible funding requests for projects that benefit communities. Examples of eligible projects include, but are not limited to, construction of a new health clinic, planning for a flood protection project, renovation of a community center, or purchase of educational supplies.

The City of Eastvale expresses its utmost gratitude to Senator Alex Padilla, Senator Laphonza Butler, Congressman Ken Calvert, and Congresswoman Norma Torres for the opportunity to submit funding requests. Staff submitted the following congressional funding requests for FY 2024-2025:
