

# EASTVALE

**SAFETY & CONNECTIVITY PROJECT**  
Along Harrison Avenue and Scholar Way

## PROJECT BACKGROUND

The City of Eastvale will construct new multi-use trail, roadway and traffic signal modifications, and aesthetic features as part of the Safety & Connectivity Project along Harrison Avenue and Scholar Way. Once completed, the project will make it easier and safer to travel on Harrison Avenue and Scholar Way, whether you are in a car, on a bike or on foot. This project **WILL NOT** reduce the number of travel lanes on either side of the road and will enhance traffic flow along Harrison Avenue and Scholar Way. After the City received input from the surrounding communities and stakeholders throughout the preliminary engineering phase, this project is progressing towards a mid 2025 final design.

Harrison Avenue and Scholar Way provide north/south connectivity within the city. The project will connect to the multi-use trails along Santa Ana River, other future planned trails, future downtown and more.

Enhancing the safety and connectivity on Harrison Avenue and Scholar Way are identified as a top priority (tier 1 project) in the city's Bicycle Master Plan. This will be the first project to move forward following the grant award for active transportation and will service several neighborhoods, schools, parks and transit routes to greatly improve mobility for people who walk and bike, use transit, and vehicles, creating the foundation for a robust active transportation network for users of all ages and abilities.

## PROJECT GOALS

The goals of the Safety & Connectivity Project Along Harrison Avenue and Scholar Way are to:

- ▶ Make roads safer for everyone, whether in a car, on a bike or on foot
- ▶ Enhance traffic flow along Harrison Avenue and Scholar Way
- ▶ Improve connectivity to schools, multi-use trails, parks and recreational areas with new multi-use trails
- ▶ Explore opportunities to enhance roadway areas with new landscape and aesthetic features within the project area

This project will not:

- ▶ Reduce the number of travel lanes on the road
- ▶ Significantly impact traffic flow in the project area

## STAY CONNECTED

The City of Eastvale is committed to proactive, two-way communication throughout the planning process.

There are a number of ways you can get involved and stay updated throughout the process.
