WESTERN RIVERSIDE COUNTY
REGIONAL WASTEWATER AUTHORITY

Treatment Plant Tour Saturday, Dec. 3

9 a.m.

14634 River Road
Eastvale, 92880

Join us for a morning tour of our treatment plant and learn more about the expansion and enhancements taking place at the facility. Currently, the plant is undergoing state-of-the-art enhancements to minimize odors and to expand the facility to treat more water to provide long-term water supply reliability in our region.

The WRCRWA Treatment Plant is an essential part of the infrastructure in our region and provides high-quality treatment for wastewater coming from homes and businesses in the area, especially during the drought, and reduces the need for imported water for irrigating parks, golf courses and schools.

For more information or to
RSVP, call 951.571.7273.
